Hearts *for* Home Health

Hearts *for* Home Health

SERVICES

Recovering from any kind of illness or hospital stay is a journey of small steps forward, day by day. Hearts for Home Health is an important part of the journey for many people. Our specialists, nurses, and therapists follow the Golden Rule to help patients rehabilitate and recover from the comfort of their own homes. We treat everyone the way we would want to be treated. We work closely with primary care physicians to coordinate every step of the journey toward feeling good and healthy again. Home health care helps patients:

- Recover in a safe, comfortable environment – the home
- Recover more completely, with fewer setbacks
- Reduce hospital readmissions
- Regain independence

SERVICES PROVIDED

We offer many different services that can be included in a patient's plan of care when needed. We believe in nurturing all aspects of a person by addressing their physical and emotional needs. We offer the following:

- Skilled Nursing**
- Home Health Aides**
- Physical Therapy**
- Occupational Therapy**
- Speech Therapy**
- Medical Social Work**

OUR PROMISE

- Each plan of care will be unique, and specially tailored to fit a patient's needs
- We will provide a clear explanation of each part of the plan of care
- Physicians, nurses, therapists, and aides will work closely together and adjust plans of care as necessary
- We will place the emotional and physical well-being of the patient as our first priority

WHO IS ELIGIBLE FOR HOMECARE?

The following criteria must be met:

- The services must be ordered by a physician.
- There must be a skilled need. Skilled nursing or therapy services are needed on an intermittent basis.
- A patient must be homebound.
